

## KEEP YOUR RUST-OLEUM® STOCKS “FRESH”

**The Rust-Oleum Batch Coding System helps you move older stocks to the front and place newer stocks at the back.**

The Rust-Oleum coding system tells you the age of each container of RUST-OLEUM. You’ll find it on lids or bottoms of brush material, on the bottom of spray containers, and on cartons.

NOTE: Some products manufactured on special filling equipment may have different coding formats. When making a sale of several cans or cartons of an item be sure to supply the order from one batch code. This assures complete uniformity and helps assure your customers of complete satisfaction.

**We guarantee our products to conform to Rust-Oleum specifications. Due to paint application variables beyond our Control; ALL WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING MERCHANTABILITY A PARTICULAR PURPOSE, ARE HEREBY EXCLUDED. Liability, if any, is limited to replacement of the product or refund of the at the purchase price. Labor and other material costs are excluded from this limited warranty.**
