SureGrip® 122
Heavy Duty Clear Strippable
Wallcovering Adhesive

SureGrip® 122 Heavy Duty Clear Strippable Wallcovering Adhesive is a general purpose, READY-TO-USE adhesive for hanging all types of standard wallcoverings from lightweight non-pasted and pre-pasted wallpaper to heavyweight vinyl (up to 34 oz. commercial grade types I, II and III).

SureGrip 122 flows easily through pasting machines, has strong wet tack and allows future removal of fabric-backed vinyl wallcovering from primed or bare drywall without damage to the surface.

- For use with standard light to heavyweight non-pasted and pre-pasted wallcovering
- Strong wet tack and exceptional slip for easy positioning
- Excellent adhesion
- Spreads easily - Ideal for pasting machines

Selection Data
Generic Type - Starch-based wallcovering adhesive.

Recommended Uses - Use for hanging all types of standard wallcoverings from lightweight non-pasted and pre-pasted wallpaper to heavyweight woven fabric- and acrylic-backed vinyl (up to 34 oz. commercial grade types I and II). Refer to the “ZINSSER SureGrip Adhesive Selection Chart” online at www.rustoleum.com for detailed recommendations.

Not Recommended For - This product is not intended for hanging borders or wallcovering over existing vinyl wallcovering without the use of a primer. See “Existing Vinyl Wallcovering” on page 2 for recommendations. This product is not recommended for hanging foil, Mylar®, flexible wood or unbacked cork. This product is not recommended for hanging non-woven wallcovering if dry removal is desired.

Application Data
Surface Preparation - Surface must be clean, dry, smooth and sound - free of dust, grease, wax, oil, old wallcovering adhesive, mold and mildew and other residue. Inspect surface for paint bonding, loose wallcoverings, damaged wallboard or plaster. Remove old or loose wallcovering and residual wallcovering adhesive with DIF® Wallpaper Stripper. Repair unsound surfaces. Seal loose paint or damaged drywall and skim coats with GARDZ® High Performance Sealer as needed.

Prime all surfaces (including oil-based paint, oil-based primers for painted surfaces and latex or oil-based stain-kill coatings) with an acrylic primer - either SHI ELDZ® Universal, SHI ELD Universal PLUS, Z-54 Wallcovering Primer with Tack, SHI ELDZ Clear Acrylic Wall Size or SHI ELDZ Oil-Base Wallcovering Primer. Before proceeding with any unusual conditions, consult your wallcovering or adhesive supplier.

Application - Use only when temperature is above 50°F. Adhesive is READY TO USE, but may be thinned with a maximum of 1 pint of water per gallon of adhesive for use with lightweight nonpasted or pre-pasted wallpaper. Apply an even coat using a roller, brush or pasting machine. Make sure sufficient adhesive is on edges. Avoid contact with the surface of embossed or delicate wallcovering. Book and hang wallcovering according to manufacturer's instructions.
**Mold & Mildew** - Eliminate pre-existing mold and mildew by washing the affected area with a solution of 3/4 cup of Clorox® Ultra Bleach to 1 gallon of clean water. Wear protection to prevent skin and eye contact. Quickly wash off any solution that comes in contact with your skin. Do not add ammonia or other cleaning products to the bleach solution. Rinse surface with clean water. Allow surface to dry thoroughly before applying wallcovering.

**Drywall** - Wipe down with a damp cloth to remove residual joint compound dust prior to priming. For strippability, no primer is required when hanging strippable fabric-backed vinyl wallcovering over bare drywall; however, adhesive must fully cure (approximately four to six weeks) prior to stripping. If uncertain, priming is always recommended to assure proper surface preparation, easiest installation, optimum finished results and damage-free removal.

**Plaster** - New plaster must age at least 90 days before hanging wallcovering. Prime prior to installation.

**Glossy Surfaces** - Glossy paint, paneling, metal, glass, plastic, etc. should be primed with either SHIELDZ Universal, SHIELDZ Universal PLUS, Z-54 Wallcovering Primer with Tack, SHIELDZ Clear Acrylic Wall Size or SHIELDZ Oil-base Wallcovering Primer prior to wallcovering installation. Metal surfaces should be primed with rust inhibiting Bulls Eye 1-2-3® Primer.

**Existing Vinyl Wallcovering** - This product is not intended for hanging wallcovering over existing vinyl wallcovering without the use of a primer. For hanging directly over vinyl without priming, use SureGrip 127 Vinyl Over Vinyl Wallcovering Adhesive according to label instructions. For hanging lightweight wallpaper or borders directly over unprimed vinyl, use SureGrip Universal Adhesive, SureGrip Border Adhesive for Wallpapered Surfaces or PREPZ® Pre-Pasted Wallpaper and Border Prep & Adhesive.

**Textiles and Delicate Wallcoverings** - Take special care to keep the adhesive off the face of wallcovering. Some wallcovering can be stained by water alone. Test for stain resistance prior to the installation and hang according to manufacturer's instructions.

**Coverage** - One gallon of adhesive will hang up to 4 to 5 double rolls or 280 sq. ft. Spread rate may differ with various backings.

**Dry Time** - Drying time will vary depending on the wallcovering type, temperature, ventilation and humidity of the room.

**Cleanup** - Remove excess adhesive on or around the wallcovering immediately with clean water. Additional effort may be required if adhesive is allowed to contact the surface of embossed or textured vinyl. Close container tightly after each use.

**Tool Cleanup** - Clean tools with warm water.

**Storage/ Shelf Life/ Disposal** - Protect from freezing. Always keep the container tightly closed and store in a cool dry place at temperature between 40°F to 100°F. Normal storage life is one year. The disposal of excess or left over product should conform to local laws regarding water-based products.

**Caution** - Avoid contact with eyes and skin. Wear eye and skin protection. In case of eye contact, flush eyes with plenty of water for at least 15 minutes. In case of skin contact, wash thoroughly with soap and water. Do not take internally. If swallowed contact a physician or Poison Control Center. Use with adequate ventilation. Keep Out of Reach of Children.

**Limited Warranty** - This product will perform as claimed if applied according to our directions. The directions apply to most applications, but may not cover special conditions, applications, techniques and/or surfaces. If you have a question, check with your dealer or contact Rust-Oleum Corporation, Vernon Hills, IL. Warranty is limited to replacement or refunded value of product actually used when supported by proof of purchase if such product proves defective within one year from date of manufacture.
Keep out of reach of children
